Corporate Table Item Descriptions

- **Walther CC9 9mm Auto Pistol** - This lightweight compact firearm features Walther's innovative softcoil gas system, which slows down and delays the rearward motion of the slide, allowing for less barrel rise and easier slide manipulation. The CCP also incorporates a manual thumb safety, a reversible magazine release and a Picatinny rail for mounting accessories. As with all Walther pistols, the CCP sports an ergonomic polymer grip with a non-slip surface. It's a single action weapon and features an 8+1 capacity.
- **Ruger American .300 AAC Black Out Bolt Action Ranch Rifle** - Featuring a flat earth finish, five round rotary magazine and threaded barrel, the compact design of Ruger's American Ranch rifle also includes Ruger's Marksman Adjustable™ Trigger with a crisp release and is adjustable between 3 and 5 lbs. Flat dark earth lightweight synthetic stock is easy to handle in tight quarters, plus installed swivel studs make it super-easy to mount a sling. Soft rubber recoil pad reduces felt recoil.
- **Taurus Model 605 .357** - Made for the very serious business of self-preservation - the 605 is built to the Taurus Zero Tolerance standard - in design, fabrication, fit and performance. Meaning there is simply no tolerance for parts that do not perform as if someone's life depends on them. Using the powerful .357 Magnum ammo - this quick-draw revolver has plenty of muscle to back it up. Features include fixed sights, crisp single-double action trigger and a transfer bar for added safety.
- **Weatherby PA-08 Synthetic 12ga Pump Shotgun** - All Weatherby PA-08 pump shotguns feature a ventilated top rib and brass bead front sight to aid in target acquisition. The vent rib works to dissipate heat in the barrel, promotes a smoother "swing-thru" and gives the shooter an excellent sight line for acquiring fast moving targets. Lightweight and durable injection molded synthetic stock. Available in 12 gauge, 3" chamber and the chrome lined barrel comes with three application specific choke tubes. Also features swivel sling studs and 5 round capacity and weighs 6.5 lbs.
- **Yeti Tundra Cooler 65qt.** - Roto-molded construction, t-rex lid latches, permafrost insulation, coldlock lid gaskets, Fatwall design, lip grip handles, anchor point tie down slots, and more...
