RUGER **REDHAWK** RAFFLE

2020 Ruger® Redhawk® Double-Action Revolver Engraved

Ruger® Redhawk® is a strong and dependable Double-Action Revolver specifically designed around the 44 magnum cartridge, giving it an ideal size and weight for the cartridge. Over the years it has earned a reputation as one of the most rugged handguns ever designed—you will never wear one out. To withstand heavy recoil, the triple-locking cylinder is locked into the frame at the front, rear, and bottom so it stays aligned without getting sloppy over time. A full-length rib along the top of the barrel adds weight, helping to tame recoil, and provides ample steel to dovetail the front sight, making the sight easily replaceable. The rear sight is fully adjustable for windage and elevation, and the factory ramp front sight is easily seen, while providing minimal interference when drawing the gun from a holster. The Ruger® Redhawk® utilizes a single spring for both hammer and trigger that provides a smooth double-action trigger pull; the single-action pull breaks clean and crisp. Rugged stainless steel construction with no side plates is designed specifically to handle powerful magnum loads through extra metal in the top strap, sidewalls and barrel mounting areas. The Ruger® Redhawk® 44 Magnum is dual chambered to also accept factory .44 Special cartridges.
