

Raffle Vouchers & Raffle Packs

It's simple really. When you purchase a table package you get raffle vouchers. Raffle vouchers are good because you can trade them for Raffle Packs. The raffle tickets in the raffle packs can be used on the bucket tickets. White tickets for white buckets and red tickets are for red buckets and so on. So why is this good? If you get a table package and you get 4 vouchers you can split them with other people at the table or you can just trade them for Raffle Packs. Each voucher is worth \$100 in Raffle Pack....But, wait there's more. You can add money to your vouchers and get a larger raffle pack. You even get a choice between Regular Raffle Packs or Bonus Packs. Bonus Packs are more red, blue, and gold tickets with out the white tickets. Oh, and by the way, the red, blue, and gold buckets are bigger prizes like GUNS!

4 Vouchers + \$100 Cash = \$500 Regular Raffle Pack or \$500 Bonus Pack

Bonus Packs available in \$300 \$500 and \$1000 Packs
